

European Materials Handling Federation

---

Brussels, 25 April 2024

## Press Release

### FEM welcomes Swisslog as a new member

FEM, the European materials handling federation, representing European manufacturers of materials handling, lifting and storage equipment, announces [Swisslog](#) as its newest member.

Based in Switzerland, with more than 3000 people working across the globe, Swisslog delivers data-driven and robotic solutions for logistics automation and specialises in the manufacturing of palletizers, shuttles, cranes, conveyors and picking robots for manifold applications.

With a focus on innovation, they provide automated solutions for all types of warehouse environments and deliver cutting-edge solutions that optimise efficiency and productivity across various industries.

Sharing core goals with fellow FEM members, they are committed to setting new standards in warehouse automation to provide future-proof products and solutions, fostering collaboration among stakeholders, and advocating for sustainable practices and technological advancements.

**Jens Christian Schmale**, CEO of Swisslog: *"As a manufacturer of materials handling equipment and software, we believe that joining FEM will not only align us with industry standards but also provide us with valuable networking opportunities and resources for further growth and development."*

**Olivier Janin**, Secretary General of FEM: *"We are delighted to welcome Swisslog, a forward-thinking, innovative company that will support FEM's efforts to promote a common vision for the European Material Handling Industry."*
